Diplomatic Programs (DP), previously called Diplomatic and Consular Programs (D&CP), is financed by this appropriation, fees for services, and reimbursements from other agencies (including for administrative and other services provided by the Department of State). As in previous years, two-year funding is requested for this account, except for funds requested for Worldwide Security Protection (WSP), which are to remain available until expended. DP is the Department of State's primary operating account and funds a broad range of activities from policy setting, planning and design, to implementation and operations and maintenance. The 2019 request includes base funding for the State Department operations in Iraq, Afghanistan, Pakistan, and other High Threat Posts (HTP). The balance of the funding requested for operations in Iraq, Afghanistan, Pakistan, and other HTP is included in the Overseas Contingency Operations (OCO) account request for the DP account.

Funds are requested in the following categories:

Human Resources.—This category supports American salaries at overseas and domestic United States diplomatic missions, including Department of State employees carrying out security protection activities. Professional development and training is a continuous process by which the Department ensures that its professionals have the skills, experience and judgment to fulfill its functions at all levels. Training programs are designed to provide employees with the specific functional area and language skills needed for the conduct of foreign relations in the Department and abroad. This activity also supports the management, recruitment, and performance evaluation of Foreign and Civil Service employees (including efforts to attract a diverse applicant pool) and locally employed staff.

Overseas Programs.—This category provides funding for the operational programs of all the regional bureaus of the Department of State, which are responsible for managing United States foreign policy through bilateral and multilateral relationships. Funds made available for 2019 will support 275 United States embassies, consulates, and other diplomatic posts worldwide. Resources for this activity are used to provide for: the political and economic reporting and analysis of interests to the United States; the representation of U.S. diplomatic and national interests to countries abroad; and the bilateral and multilateral negotiation of U.S. foreign policy objectives, including the hosting of and participation in various international conferences, meetings and other multilateral activities in the United States and abroad. Resources in this appropriation support the conduct of international informational programs of the United States. These resources are used to define, explain and advocate U.S. policies abroad and to seek to increase knowledge and understanding among foreign audiences of U.S. society and its values. This activity also encompasses medical programs for the Department of State, the Foreign Service and other U.S. Government departments and agencies overseas. Centralized funding for travel and transportation of effects associated with the assignment, transfer, home leave and separation of the Department's personnel and dependents is also included in this activity. This category also supports reconstruction and stabilization activities of the Conflict Stabilization Operations (CSO) Bureau.

Diplomatic Policy and Support.—This category supports the operational programs of the functional bureaus of the Department of State, which includes providing overall policy direction, coordination, and program management among United States missions abroad in pursuit of regional and global foreign policy objectives, including the hosting of various international conferences and meetings in the United States and abroad. Resources also fund the management of U.S. participation in arms control, nonproliferation, and disarmament negotiations and other verification and compliance activities, in addition to funds otherwise available for such purposes. The information management activity in DP includes resources that are used for the creation, collection, processing, use, storage, and disposition of information required for the formulation and execution of foreign policy and for the conduct of daily business. Components of the information management activity include: telecommunications, information security, information system services, pouch, mail and publishing services for both unclassified and classified information. These activities include domestic and overseas execution of Department programs, such as budget and financial management, contracting and procurement, domestic facilities and vehicles, and rental payments to GSA.

Security Programs.—This category provides for the operation of security programs, including for Worldwide Security Protection (WSP) and the Bureau of Diplomatic Security, to protect diplomatic personnel, overseas diplomatic missions, residences, domestic facilities and information. The salaries paid to Department employees who carry out the security protection function worldwide are included in the Human Resources program activity. This activity identifies resources that are used in meeting security and counterterrorism responsibilities, both foreign and domestic. Programs covered in this activity include but are not limited to: security operations; engineering services, which are related to the technical defense of U.S. Government personnel and establishments abroad against electronic and physical attack; homeland security related activities; protection of Department personnel and foreign dignitaries; and physical security operations.

The Consular and Border Security Programs account (CBSP) uses revenue from consular fees and surcharges to fund programs and activities, consistent with applicable statutory authorities. These fees and surcharges include Machine Readable Visa (MRV) fees, Western Hemisphere Travel Initiative (WHTI) surcharges, Passport Security surcharges, Immigrant Visa Security surcharges, Diversity Visa Lottery fees, and Affidavit of Support fees. In FY 2017 and prior years, these fees were credited in the Diplomatic and Consular Programs account as spending authority from offsetting collections. The Consolidated Appropriations Act of FY 2017 enacted a new standalone account to display fee-funded consular programs independent

6 Administration of Foreign Affairs—Continued Federal Funds—Continued

of the larger Diplomatic Programs account beginning in FY 2019. This change will enable the Department to provide greater transparency and accountability in financial reporting on these fees and surcharges, facilitate budget estimates for these fees and surcharges, and more easily make the information available to users of budget information and other stakeholders.

Section 7024(i) of the general provisions provides a new permanent extension of the Western Hemisphere Travel Initiative Surcharge. Section 7050 provides legislative language expanding the authorities of the Border Crossing Card and Passport Security Surcharge. It also includes a transfer authority between the CBSP account and accounts under the heading Administration of Foreign Affairs. Finally, Section 7051 provides the ability to use the Fraud Prevention and Detection fees for the prevention and detection of all visa fraud.

These consular fees and surcharges support an array of activities that are vital to ensuring strong U.S border security, including routine and emergency services for U.S. citizens overseas; the issuance of secure passports to U.S. citizens at 29 passport facilities and a partner network of more than 8,000 passport acceptance facilities domestically; the adjudication of visa applications; the prevention and detection of fraud involving visas and passports; and the Department's information technology programs. Together with the Department of Homeland Security, the Department of Justice, the Intelligence Community, Department of the Treasury, and the law enforcement community, the Department has built a layered visa and border security screening system that rests on training, technological advances, biometric innovations and expanded data sharing.

This appropriation provides funding for international exchange programs authorized by the Mutual Educational and Cultural Exchange Act of 1961, as amended, to support U.S. foreign, economic, and security policy objectives and to assist in the development of friendly, sympathetic, and peaceful

relations between the United States and other countries. These goals are addressed by building increased mutual understanding through international exchange and professional development activities. Programs under this appropriation include:

Academic Programs.—Includes the J. William Fulbright Educational Exchange Program, which provides U.S. and foreign students, teachers, scholars, and administrators the opportunity to pursue degrees, teach, and conduct research in foreign and U.S. universities. Academic Programs also include English language programming and educational advising services. English language programs help train and develop foreign teachers of English, send Americans overseas to teach English and train instructors, teach English to disadvantaged students, and provide language learning materials and resources. Educational advising programming supports outreach to foreign students across the world to assist in the process of applying to U.S. universities. Additional academic programs such as the Benjamin A. Gilman International Scholarship Program provide opportunities for American participants with financial needs to study abroad.

Professional/Cultural Exchanges.—Includes exchanges linking U.S. and foreign participants in multiple fields directly tied to U.S. foreign policy goals. The International Visitor Leadership Program brings thousands of foreign leaders to the United States for intensive short-term professional exchanges to meet and confer with their American counterparts, gaining first-hand knowledge about U.S. society, culture and democratic values. Citizen Exchanges Program participants partner with an extensive network of organizations and experts from across the United States to conduct professional fellowships as well as arts, sports, and high school exchange programs focused on current and future leaders.

Youth Leadership Initiatives.—Includes programs targeting young private, public, and civil sector leaders in Africa, Southeast Asia and the Americas.

Program and Performance.—Provides resources and opportunities to ECA exchange program alumni to build on participant exchange experience, developing growing and active alumni association networks. Funds also support on-going program performance measurement and independent evaluations.

Exchanges Support.—Includes all domestic staff, overseas Regional Language Officers and support costs managed by ECA; as well as government-wide exchanges coordination.

Under the direction of the Secretary of State, the overall mission of the Bureau of Overseas Buildings Operations (OBO) is to provide U.S. diplomatic and consular missions abroad with safe, secure, and functional facilities that support the foreign policy objectives of the United States. Specific program functions include: providing guidance to posts, the regional bureaus and other foreign affairs agencies on the renovation, construction and operations of facilities; providing expert space and facilities planning; managing and overseeing the design, construction, and renovation of mission facilities; incorporating security features into overseas and domestic facilities; and ensuring the security of facilities during construction or renovation. In addition, OBO is responsible for establishing standards and policies for overseas housing, developing, in conjunction with posts, effective maintenance programs for post facilities, and monitoring and reporting the inventory of maintenance and backlog requirements. OBO also ensures the safety of the building occupants through the development of fire/life safety and accessibility compliance programs.

In 2019, the Department will manage the fifteenth year of the Capital Security Cost Sharing (CSCS) Program. This program has two main goals: accelerating the construction of new safe, secure and functional embassy and consulate compounds, and providing an incentive for all United States Government agencies to right-size their presence overseas through the use of cost-sharing. The \$2.2 billion program is consistent with the Benghazi Accountability Review Board's recommended funding level for the construction of new secure facilities overseas. Funding sources include ESCM regular base, interagency contributions, and consular fee revenues.

The 2019 request continues the Maintenance Cost Sharing (MCS) Program to provide critically needed renovation, construction and repair of overseas facilities, to provide adequate working conditions for multi-agency staffs, and protect the U.S. taxpayer investment. MCS and CSCS are funded within a combined \$2.2 billion program in FY 2019.

The objective of the Asset Management Program is to obtain the best use of diplomatic and consular properties overseas through sale of surplus or underutilized properties and reinvestment of the proceeds in properties that provide a greater return to the U.S. Government and/or improve the safety of mission personnel. In lieu of appropriated resources, OBO uses asset sales proceeds for long-term capital investment to minimize the growth of U.S. Government leasehold requirements (through property acquisition) or to address a high-priority need for new construction or fit-out of leased space.

This appropriation also provides for capital expenditures necessary to preserve, maintain, repair, and plan for buildings owned or leased by the Department of State overseas.

AIT supports U.S. interests by promoting U.S. exports, economic and commercial services, and cultural and information exchange; facilitating military sales; providing consular related services for Americans and the people on Taiwan; and on behalf of the Department of State and

various U.S. Government agencies, carrying out liaison with Taiwan's counterpart organizations.

The Department contracts with AIT to conduct commercial, cultural, and other relations with the people of Taiwan. Consular related expenses for AIT are funded with fee revenue from the Consular and Border Security Program.

The current appropriation finances any unfunded liability created by new or liberalized benefits, new groups of beneficiaries, and salary increases. The 2019 permanent appropriation provides a supplemental payment to the fund for disbursements attributable to the Foreign Service Pension System; and unfunded interest along with liability from military service for the Foreign Service Retirement and Disability System. In addition, the appropriation also finances the annual balance of the Foreign Service normal cost not met by employee and employer contributions. The amount of the appropriation is determined by the annual evaluation of the Fund balance

derived from current statistical actuarial data, which includes inflationary cost-of-living adjustments.

The Foreign Service National Defined Contributions Fund (FSN DCF) is an after-employment benefit plan for Locally Employed Staff (LE Staff) working for the Department of State and other Foreign Affairs agencies. The purpose of the fund is to accumulate and distribute U.S. Government (USG)-funded contributions for end-of-service benefits for LE Staff in

countries where U.S. missions have determined that participation in the local social security system (LSSS) is not in the public interest of the USG. The Department determines which countries are eligible to participate in the fund. Upon separation, payments under this Plan shall be made consistent with the host country law, including any court order affecting payments to participants, unless decided otherwise by the Department.

This fund, which is available without fiscal year limitations, is authorized by sections 13 and 23 of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2684), finances on a reimbursable basis certain administrative services, such as printing and reproduction, editorial material, motor pool, operations and dispatch agencies operations, inter-agency cooperative administrative support services, acquisition services, information technology support, medical services, aviation services, special issuance passport services, and expenses of carrying out the Foreign Missions Act, including any acquisitions of property under the authority of the Foreign Missions Act.

Using the Working Capital Fund, the International Cooperative Administrative Support Services (ICASS) program was fully implemented in 1998. ICASS restructures overseas administrative support activities to allow more decision-making and managerial participation by all participating agencies, more equitable cost distribution, and incentives for efficient provision of services. Under ICASS, each agency represented at an overseas post chooses the services it wishes to receive and pays a proportional share of the cost of those services. Working through inter-agency councils at each overseas post, all agencies have a say in determining post administrative budgets and defining service standards, as well as reviewing costs and vendor performance.

The first phase of the President's Emergency Plan for AIDS Relief (PEPFAR), from 2004 to 2008, was the largest ever global public health initiative by a single country to fight the HIV/AIDS epidemic. Funding was appropriated in the Global HIV/AIDS Initiative account for this purpose through 2007. Beginning in 2008, funds were appropriated in the Global Health and Child Survival (now Global Health Programs) account, and will continue to be requested in that account.

The Global Health Programs account funds health-related foreign assistance for the Department of State (DOS) and the U.S. Agency for International Development (USAID). Global health programs seek to improve health outcomes by increasing impact through strategic integration and coordination; strengthening and leveraging multilateral institutions; encouraging country ownership and investing in country-led plans; building sustainability through health systems strengthening; improving metrics, monitoring and evaluation; and promoting research, development and innovation.

Global Health Programs-State.—The Global Health Programs (GHP-State) account supports the goal of controlling the HIV/AIDS epidemic through the President's Emergency Plan for AIDS Relief (PEPFAR). The 2019 Budget requests \$4.375 billion in the GHP-State account. PEPFAR is led by the Office of the Global AIDS Coordinator in DOS, which draws upon the expertise and experience of other USG partners such as USAID, the Department of Health and Human Services, the Department of Defense, and the Peace Corps to align resources and expertise in the fight against global AIDS. Programs work through expanded partnerships to build capacity for effective, innovative, country-led, and sustainable services, and to create a supportive and enabling policy environment for combating HIV/AIDS, including as part of the broader USG and country-level health and development approach. In addition, PEPFAR supports implementation of strong monitoring and evaluation systems to set benchmarks for outcomes and programmatic efficiencies through regularly assessed planning and reporting processes to ensure goals are being met. PEPFAR programs support strategic, scientifically sound investments to rapidly scale up core HIV/AIDS prevention, care, and treatment interventions within the context of strengthened health systems, particularly in terms of human resources in nations with severe health worker shortages and lack of service delivery capacity. PEPFAR integrates its efforts with important programs in other

areas of global health as well as other areas of development, including the areas of education, gender equity, and economic development. A contribution of \$925 million to the Global Fund to Fight AIDS, Tuberculosis and Malaria is included in the GHP-State request.

Global Heath Programs-USAID.—The 2019 Budget requests \$1.928 billion in the GHP-USAID account for a comprehensive and integrated approach to improve global health outcomes. USAID, working in partnership with foreign governments, local private sector and non-governmental organizations, and other public-private partnerships, will build capacity, strengthen health systems, and promote sustainable integrated health care for vulnerable populations. Funding includes activities that support the goal of ending preventable child deaths in synergy with malaria, family planning and reproductive health, and nutrition activities, addressing such issues as micronutrient deficiencies and community management of acute malnutrition. Activities will also address the threat of other infectious diseases such as tuberculosis and multi-drug resistant tuberculosis, and neglected tropical diseases in developing countries.

The Budget also proposes to authorize the use of a portion of the remaining emergency funding appropriated in 2015 for the Ebola response in West Africa (Public Law 113–325) for global health security programs. In 2019, \$72.5 million in unobligated balances and recoveries from IDA, the Global Health Programs account, and/or the Economic Support Fund account would be made available for these purposes.

Overseas Assistance.—The majority of the Migration and Refugee Assistance (MRA) account addresses the protection and assistance needs of refugees, conflict victims, stateless persons, and vulnerable migrants worldwide. Funds primarily support the programs of international organizations, including the United Nations High Commissioner for Refugees (UNHCR), the International Committee of the Red Cross (ICRC), and the International Organization for Migration (IOM), as well as non-governmental organizations (NGOs).

Humanitarian Migrants to Israel.—These funds assist humanitarian migrants resettling in Israel.

US Refugee Admissions.—MRA funds overseas processing, transportation, and initial placement for refugees and certain other categories of special immigrants resettling in the United States. These activities are carried out primarily by NGO partners and IOM.

Administrative Expenses.—These funds finance the salaries and operating expenses in Washington, D.C. and overseas for the Bureau of Population, Refugees, and Migration. (Note: Funds for the salaries and support costs of the positions dedicated to international population policy and coordination are requested under the Department of State's Diplomatic Programs appropriation.)

The MRA account will support ongoing as well as unexpected, urgent refugee and migration needs. In 2019, no funding is requested for the U.S. Emergency Refugee and Migration Assistance (ERMA) account.

International Narcotics Control and Law Enforcement (INCLE) supports bilateral, regional, and global programs that mitigate security threats posed by all forms of transnational crime including production and trafficking of narcotics, illicit trafficking in persons and wildlife, money-laundering, intellectual property crime, cyber security, and other pernicious forms of transnational crime. Programs strengthen partner countries' criminal justice systems, including their ability to cooperate effectively with U.S. law enforcement, strengthen law enforcement and judicial capabilities, counter drug flows, combat transnational crime, and address the underlying conditions, such as corruption and weak rule of law, that foster state fragility and spur irregular migration to the United States. The 2019 INCLE budget supports Presidential policy priorities, including efforts to protect the safety of the United States and its citizens by combating transnational crime and trafficking, in alignment with Executive Order 13773, Enforcing Federal Law with Respect to Transnational Criminal Organizations and Preventing International Trafficking.

Established by the Millennium Challenge Act of 2003, the Millennium Challenge Corporation (MCC) has the statutory goal of providing assistance to the poorest countries in the world to promote economic growth, eliminate extreme poverty, and strengthen good governance, economic freedom, and investments in people. Since its inception, MCC has signed 33 compacts and 26 threshold program agreements, totaling nearly \$12 billion. These investments help foster stability through economic growth and poverty reduction in partner countries. MCC encourages policy reforms by working with only those countries that have created the conditions for growth by ruling justly, investing in their people, and committing to economic freedom, with a particular emphasis on fighting corruption and maintaining democratic rights. Countries develop their poverty reduction proposals in broad consultation with their own civil society and MCC. MCC's evidencebased approach leads to compacts that specifically define the implementation responsibilities of partner countries, including financial accountability and transparent and fair procurement practices, and require measurable results to ensure that MCC assistance is used responsibly and effectively.

In order to streamline accounts and ensure the most effective use of foreign assistance funding, the 2019 Budget incorporates funding and programs previously requested under the Economic Support Fund (ESF) and Development Assistance (DA) accounts within the new Economic Support and Development Fund (ESDF). The request prioritizes and focuses foreign assistance in regions and on programs that advance our national security and protect the American people, promote U.S. prosperity and economic opportunities, and advance American interests and values around the world, while also continuing to ensure efficiency, effectiveness, and accountability to the U.S. taxpayer. Programs will help countries of strategic importance meet near and long-term political, economic, development, and security needs.

The Global Security Contingency Fund (GSCF) permits the Department of State and the Department of Defense to combine resources and expertise to address emergent challenges and opportunities. The GSCF can be used to provide military and other security sector assistance to enhance a country's national-level military or other security forces' capabilities to conduct border and maritime security, internal defense, and counterterrorism operations, or to participate in or support military, stability, or peace support operations, consistent with U.S. foreign policy and national security interests. The GSCF can also be used to provide assistance to the justice sector (including law enforcement and prisons), rule of law programs, and stabilization efforts in cases where civilian providers are challenged in their ability to operate. Assistance programs under this account are collaboratively developed by the Department of State and the Department of Defense. The fund allows direct contributions from each Department to be transferred into the fund for implementation by the most appropriate agency in a given situation, be it State, Defense, the U.S. Agency for International Development, or others. The National Defense Authorization Act for

Fiscal Year 2018 extended the GSCF authority until September 30, 2019. No funding is requested in 2019.

Foreign Military Financing (FMF) direct loans finance sales of defense articles, defense services, and design and construction services to foreign countries and international organizations. The FMF Loan Program Account was established pursuant to the Federal Credit Reform Act (FCRA) of 1990, as amended, to provide the funds necessary to support the cost of FMF direct loans. Expenditures from this account finance the subsidy cost of direct loan disbursements and are transferred to the FMF Direct Loan Financing Account to make loan disbursements for approved Foreign Military Sales or commercial sales.

As required by the Federal Credit Reform Act (FCRA) of 1990, the Foreign Military Financing (FMF) Direct Loan Financing Account is a non-budgetary account that records all cash flows to and from the Government resulting from FMF direct loans obligated in 1992 and beyond. Amounts in this account are a means of financing and are not included in budget totals. The account uses permanent borrowing authority from the U.S. Treasury combined with transfers of appropriated funds from the FMF Loan Program Account to make disbursements to borrowers for approved procurements.

The Foreign Military Loan Liquidating Account records all cash flows to and from the Government resulting from direct loans obligated and loan guarantees for foreign military financing committed prior to 1992. This account is shown on a cash basis and reflects the transactions resulting from loans provided to finance sales of defense articles, defense services, and design and construction services to foreign countries and international organizations. No new loan disbursements are made from this account. Certain collections made into this account are made available for default claim payments. The Federal Credit Reform Act (FCRA) provides permanent indefinite authority to cover obligations for default payments if the liquidating account funds are otherwise insufficient. All new foreign military financing credit activity in 1992 and after (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year) is recorded in corresponding program and financing accounts.

As required by the Federal Credit Reform Act of 1990, the Military Debt Reduction Financing (MDRF) Account is a non-budgetary financing account that records all cash flows to and from the Government resulting from restructuring foreign military loans. The amounts in this account are a means of financing and are not included in budget totals. It is an account established for the debt relief of certain countries as established by Public Law 103–87, Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1994, Section 11, Special Debt Relief for the Poorest, Most Heavily Indebted Countries. The MDRF buys a portfolio of loans from the Foreign Military Loan Liquidating Account, thus transferring the loans from the Liquidating Account to the MDRF Account.

The Global Agriculture and Food Security Program (GAFSP) is a multidonor trust fund called for by G-20 leaders in 2009 to fund projects that support the agricultural investment plans of poor countries. GAFSP, which is administered by the World Bank, leverages the expertise and implementing structures of other multilateral institutions such as IFAD, the World Bank, and the regional development banks.

As of end-April 2017, GAFSP's public sector window has awarded \$1.18 billion in grant financing to 31 low-income countries in Africa, Asia, and Latin America to help smallholder farmers and their families increase their income and strengthen their nutritional outcomes. These grants were funded from contributions from Australia, the Bill and Melinda Gates Foundation, Canada, Ireland, South Korea, Spain, the United Kingdom, and the United States. The private sector window, which provides financing to small and medium-sized agribusinesses, has approved \$243.2 million of investments as of end-December 2017, funded from contributions from Canada, Japan, the Netherlands, the United Kingdom, and the United States.

The United States is the largest of 10 donors to GAFSP, having contributed \$653 million since GAFSP's inception. The United States contributed \$475 million towards the initial GAFSP pledge in 2009. In 2012, the U.S. pledged to contribute \$1 for every \$2 dollars in new contributions from other donors over the period of the pledge, up to a maximum of \$475 million. No new funding is required in 2019.

The International Bank for Reconstruction and Development (IBRD) is the arm of the World Bank that provides financing to creditworthy middle-income countries to promote inclusive economic growth and reduce poverty. Middle-income countries—home to over 70 percent of the world's poor—rely on the IBRD for financial resources and strategic advice to meet their development needs. Working across a range of sectors, including agriculture, sustainable infrastructure, health and nutrition, and education, the IBRD supports long-term human and social development needs that private creditors do not finance. During its 2017 fiscal year, the IBRD approved \$22.6 billion in loans and technical assistance. Latin America and the Caribbean (24 percent) and the Middle East and North Africa (22 percent) received the largest portion of the IBRD's new lending, followed by Eastern Europe and Central Asia (20 percent), East Asia and Pacific (19 percent), and Sub-Saharan Africa (5 percent). The United States is the largest shareholder in the IBRD, with a 16.3 percent share of total voting

power, followed by Japan and China. The United States is the only country with veto power over amendments to the Articles of Agreement.

Global Environment Facility

The 2019 Budget requests \$68.3 million for the Global Environment Facility (GEF) towards the first of four installments to the seventh replenishment (GEF-7).

The GEF is one of the largest dedicated funders of projects to improve the global environment, providing grants to address issues related to conservation, including wildlife trafficking, overfishing, land degradation, chemical pollution and other environmental concerns. The GEF benefits the U.S. economy and environment by addressing many external environmental problems that affect our domestic health, safety, and prosperity; in addition, since the GEF was established, 127 U.S. companies and consultants from 29 states have received contracts to participate in 119 GEF-backed projects. GEF-7 will begin on July 1, 2018 and will conclude on June 30, 2022.

International Finance Corporation

The International Finance Corporation (IFC) is the private sector focused part of the World Bank Group. Established in 1956, it promotes private sector development in developing countries by making loans and equity investments in private sector projects, mobilizing private capital alongside its own resources, and providing advisory and technical assistance services. In its 2017 fiscal year, the IFC approved \$11.9 billion from its own resources, and mobilized an additional \$7.5 billion from other sources, for 342 projects. More than 24 percent of IFC commitments in 2017 were for the poorest countries (those eligible for funding from the World Bank's IDA). IFC investments in 2017 were spread across the globe, with the largest recipient regions being Latin America and the Caribbean (23 percent), Sub-Saharan Africa (20 percent), and Europe and Central Asia (18 percent). The top sectors for IFC investment in 2017 were financial markets (49 percent), infrastructure (14 percent), and agribusiness and forestry (10 percent).

Treasury requests \$1,097 million for the International Development Association (IDA) in support of IDA programs over the eighteenth replenishment (IDA-18; FY 2018-FY 2020), including towards the second of three installments to IDA-18.

IDA is the part of the World Bank that supports the growth and development of the world's 75 poorest countries. IDA works across a wide range of sectors including education, basic health, clean water and sanitation, the environment, infrastructure, and agriculture. Because countries receiving IDA financing are too poor to attract sufficient capital to support their urgent development needs, they depend on low-cost loans and grants to create jobs, build critical infrastructure, increase agricultural productivity, provide energy, and invest in the health and education of future generations. IDA's goal is to help countries reduce poverty and achieve higher levels of growth and institutional capacity. Over time, IDA's support helps countries finance their development needs through domestic revenues and borrowing at nonconcessional rates. Since its inception, IDA has provided half a trillion dollars for investments in over 100 countries. As of the beginning of IDA-18, 36 countries once eligible for IDA assistance have graduated and no longer receive concessional support from IDA. Of the \$19.5 billion approved in IDA's 2017 fiscal year, more than half—\$10.7 billion—went to countries in sub-Saharan Africa. Countries in the South Asia region received \$3.8 billion, and \$2.7 billion went to countries in the East Asia and Pacific region. Sixteen percent of IDA's resources were provided as grants to fragile states and other countries at risk of debt distress in IDA's 2017 fiscal year.

Multilateral Debt Relief Initiative

Launched in 2006 at the urging of the United States, the Multilateral Debt Relief Initiative (MDRI) provides 100 percent cancellation of eligible debt to the concessional financing windows of the World Bank and the African Development Bank. Countries receive MDRI benefits after completing the reforms under the Heavily Indebted Poor Countries (HIPC) Initiative and demonstrating a track record of improved economic policy performance. The purpose of this debt reduction is to free up more resources in wellperforming low-income countries for poverty-reducing expenditures in areas such as health, education, and rural development. MDRI requires donors to compensate IDA for the cancelled debt on a dollar-for-dollar basis according to the payment schedules of the original loans. IDA calculates donors' MDRI commitments at the start of each three-year replenishment cycle according to a burden-sharing percentage. Each donor's commitments to MDRI at IDA must be met within the three-year replenishment period to avoid a negative impact on IDA's financial capacity. With a 20.1 percent burden share, the U.S. share of the cost of MDRI under IDA-18 (FY 2018-FY 2020) is \$593 million.

The Multilateral Investment Guarantee Agency (MIGA) is a member of the World Bank Group designed to encourage the flow of foreign private investment to and among developing countries by issuing guarantees against non-commercial risks and carrying out investment promotion activities. In 2017, MIGA issued a total of \$4.8 billion in guarantees for projects in developing countries. Negotiations on MIGA's first general capital increase (GCI) were completed in 1998. The United States committed to contribute a total of \$30 million in paid-in capital and nearly \$140 million in callable capital over three years.

The Inter-American Development Bank (IDB) is the largest source of development financing for 26 countries in Latin America and the Caribbean, a strategically significant and economically important region for the United States where 73 million people live in poverty. In 2017, the IDB approved \$11.4 billion in financing for 90 sovereign-guaranteed projects. About 34 percent of commitments targeted small and vulnerable borrowing countries, such as El Salvador, Guyana, Honduras, and Jamaica. The IDB works in a range of sectors and commits roughly half of its funding to support infrastructure through projects in water and sanitation, transportation and energy. The other half is split between capacity building, including reform of government operations and financial markets, and social sectors, including social investment, health, and education. Given the IDB's significant response to the global financial crisis, in 2010, shareholders approved the ninth general capital increase (GCI-9) to ensure that the IDB had the resources necessary to assist countries that suddenly found themselves shut off from global capital markets. As part of the GCI-9 resolution, the IDB established a special grant facility for Haiti that will receive income transfers totaling \$2 billion from the IDB through 2020. This facility provides Haiti with critical resources to support its long-term development agenda. The United States is the largest shareholder in the IDB, with 30 percent of total shareholding, enabling the United States to wield significant influence over major decisions about the direction of the IDB.

Inter-American Investment Corporation

The Inter-American Investment Corporation (IIC), a member of the Inter-American Development Bank Group established in 1984, promotes development of the private sector in Latin America and the Caribbean. It is a legally autonomous entity whose resources and management are separate from those of the IDB itself. In 2017, the IIC implemented organizational and operational reforms stemming from the 2016 consolidation of the IDB's private sector financing activities into the IIC. As a result of this consolidation, the IIC's mandate has expanded from a focus on small- and mediumsized enterprises to include financing for private infrastructure and corporate entities. Until IIC is fully capitalized through additional contributions from some shareholders and net income transfers from the IDB, a portion of IIC's approvals will be booked on the IDB's balance sheet. In 2017, the IIC approved 223 projects totaling \$3.1 billion, booking \$1.0 billion in new approvals to its own balance sheet and \$2.1 billion on the IDB's balance sheet. Since its inception, the IIC has approved a total of \$9.1 billion in financing.

The Asian Development Bank (AsDB) promotes broad-based sustainable economic growth and development, poverty alleviation, and regional cooperation and integration in the Asia-Pacific region. It has two main financing windows: 1) the Asian Development Bank's Ordinary Capital Resources (OCR), which provides "hard loans" at market rates and "soft loans" to eligible countries at concessional rates; and 2) the Asian Development Fund (AsDF), which provides grants to the region's poorest countries that are at moderate or high risk of debt distress. Prior to January 2017, when AsDF's equity and lending operations were merged with AsDB's OCR, the AsDF provided concessional loans.

800 Multilateral Assistance—Continued Federal Funds—Continued THE BUDGET FOR FISCAL YEAR 2019

Asian Development Bank

AsDB provides long-term loans at market rates to 22 middle-income Asian countries that lack the resources to finance their national economies and build critical infrastructure. AsDB also supports private sector development with technical assistance, loans, guarantees, and direct equity investments in viable private sector projects with strong development impacts. In 2017, AsDB approved \$18.5 billion for projects and leveraged another \$7.5 billion in co-financing from official and commercial sources. Through its lending, AsDB supports the construction of critical infrastructure, the expansion of private enterprise, and sustainable economic growth. The majority of AsDB assistance is for investments in transportation, energy, finance, industry and trade, with water supply, municipal infrastructure, agriculture and natural resources, and public sector management also receiving significant funding. AsDB is financed through capital contributions from donors, income earned on its loan and investment portfolios and bond issuances. In April 2009, donors approved AsDB's fifth general capital increase (GCI-V), which tripled AsDB's capital base to \$165 billion (including paid-in and callable capital).

Asian Development Fund

Treasury requests \$47.4 million in support of AsDF programs over the eleventh replenishment (AsDF-12; FY 2018-FY 2021), including towards the second of four installments to AsDF-12.

AsDF currently provides grants to 18 of the poorest countries in Asia and the Pacific that face moderate or high risk of debt distress, including Afghanistan and Burma. It focuses on supporting inclusive, sustainable economic growth, as well as regional cooperation and integration. Water, energy, and transportation infrastructure compose 48 percent of all AsDF projects, while financial sector deepening, agriculture, and health projects make up the remainder of AsDF grants. AsDF also invests in cross-cutting activities, such as connecting entrepreneurial training with financing for small and medium-sized enterprises. In 2017, the Board approved \$551 million in grants for AsDF-eligible countries. Cumulatively, AsDF has provided over \$50 billion for projects in developing member countries. As a result of the merger of AsDF's lending assets into AsDB's Ordinary Capital Resources on January 1, 2017, AsDF now provides only grants. AsDF will increase grant support to eligible countries by 70 percent over the period covered under the eleventh replenishment. In recent years, the United States has focused attention within AsDF on countries where support aligns with U.S. national security priorities.

The African Development Bank Group comprises 1) the African Development Bank (AfDB), which lends at market-linked rates to middle-income African countries and Africa's private-sector; and 2) the African Development Fund (AfDF), which provides grants and concessional loans to the poorest African countries. The AfDF account includes a portion of the U.S. commitment to the Multilateral Debt Relief Initiative (MDRI).

African Development Bank

Treasury requests \$32.4 million towards the eighth of eight installments under the AfDB's Sixth General Capital Increase (GCI-6).

The AfDB provides public sector financing at market-linked rates to 20 middle-income African countries, and provides loans, equity investments, lines of credit, and guarantees to support private sector investments in all 54 African member countries. The AfDB had \$6.3 billion in lending approvals in 2017, 62 percent of which was for public sector projects and 38 percent for private sector projects. Approximately forty percent of AfDB approvals are for infrastructure, including energy, transportation, communication, and water and sanitation. Other key sectors include finance, agriculture, and governance. The United States is the largest non-regional shareholder at the AfDB, with 6.6 percent of total shareholding, and the second-largest shareholder after Nigeria.

African Development Fund

Treasury requests \$171.3 million in support of AfDF programs over the fourteenth replenishment (AfDF-14; FY 2018-FY 2020), including towards the second of three installments to AfDF-14.

The AfDF is the AfDB Group's concessional lending window, providing grants and highly concessional loans to the poorest countries in Africa, of which half are fragile or conflict-affected states. In 2017, the AfDF provided \$2 billion in financing, technical assistance, and capacity-building activities to the 38 eligible countries. Many AfDF recipient countries are African economies that are becoming new, emerging markets and growing U.S. trading partners, while other AfDF recipient countries remain trapped in fragility, conflict, and poverty; are highly vulnerable to both internal and external shocks; and are in need of special assistance to achieve basic levels of service delivery. The AfDF is one of the largest official financiers of infrastructure in Sub-Saharan Africa, committing approximately half of its funding to national and regional infrastructure projects in sectors such as energy, transport, and water and sanitation. The remainder of its funding is devoted to governance, agriculture and food security, and human capital development (e.g., health and education). The AfDF also sets aside special funding for regional projects and fragile and transitioning states; in total, approximately half of its resources are directed to fragile states.

Multilateral Debt Relief Initiative

Launched in 2006 at the urging of the United States, MDRI provides 100 percent cancellation of eligible debt to the concessional financing windows of the World Bank and the AfDB. Countries receive MDRI benefits after completing the reforms under the HIPC Initiative and demonstrating a track

record of improved economic policy performance. The purpose of this debt reduction is to free up more resources in well-performing low-income countries for poverty-reducing expenditures in areas such as health, education, and rural development. MDRI requires donors to compensate AfDF for cancelled debt under MDRI on a dollar-for-dollar basis according to the payment schedules of the original loans. Similar to IDA, AfDF calculates donors' MDRI commitments at the start of each three-year replenishment cycle according to a burden-sharing percentage. Donor commitments must be met within the three-year replenishment period to avoid a negative impact on the AfDF's commitment capacity. At 11.8 percent burden share, the U.S. share of the cost of MDRI under AfDF-14 (FYs 2018–2020) is \$74 million.

Created in 1990, the European Bank for Reconstruction and Development (EBRD) supports market-oriented economic reform and democratic pluralism, predominately through private-sector lending and investments. Its original field of operation in the countries of Central and Eastern Europe and the former Soviet Union was expanded in 2012 to aid in the transitions of key countries in the Middle East and North Africa. In 2017, the EBRD committed \$11.1 billion in financing to 411 projects, according to preliminary figures. In April 1996, shareholders approved a doubling of the EBRD's capital base to EUR 20 billion (approximately \$24 billion). In 2012, the United States provided \$1.25 billion in callable capital to increase

the capital base to EUR 30 billion and support increased demands resulting from the 2008 financial crisis.

The North American Development Bank (NADB) finances environmental infrastructure projects that have been certified for their projected environmental and economic benefits. In the first 11 months of 2017, the NADB disbursed \$98.6 million in loans and grants for renewable energy, water and wastewater, public transportation, and urban infrastructure projects. As of November 30, 2017, NADB had approved \$2.4 billion in loans.

The FY 2019 Budget includes an authorization for the \$10 million appropriated in FY 2016. A U.S. contribution of this amount would match the 2016 contribution paid in by Mexico.

CONTRIBUTION TO ENTERPRISE FOR THE AMERICAS MULTILATERAL INVESTMENT FUND

The Multilateral Investment Fund (MIF), administered by the Inter-American Development Bank, provides grants, loans and equity investments to support private-sector development in Latin America and the Caribbean, with a focus on creating opportunities for poor and vulnerable populations. Grants and loans are used for technical assistance to identify innovative markets, products and business processes, investments in human capital, and business infrastructure and development. In 2017, the MIF approved 66 projects totaling \$84 million. Since its inception in 1992, the MIF has approved over 1,800 projects, for which the MIF provided approximately \$2.1 billion.

The United States has contributed \$624 million to the MIF since 1992. Negotiations concluded on a new replenishment in March 2017. The United States will not contribute to this round of funding, but will retain influence over past and new contributions through the legacy resources remaining from past contributions. The United States achieved its key objectives in the most recent negotiations: significantly increasing contributions from Latin American and Caribbean donors, strengthening the focus on poor and vulnerable populations, and increasing the efficiency of MIF operations.

IFAD was established in 1977 as a multilateral financial institution focused on promoting rural agricultural development and food security in poorer countries. IFAD's specific mandate is to help rural small-scale producers and subsistence farmers increase their productivity and incomes, improve food security, and integrate them into larger markets. No funding is requested for IFAD in 2019.

Pursuant to OTA's authorizing statute, OTA provides technical assistance to facilitate the implementation of policy, management, and administrative reforms in the areas of budget, revenue, government debt, financial institutions and financial enforcement to developing and transition countries. This assistance supports U.S. foreign policy and national security objectives.

The 2019 Budget includes \$30 million to fund full-time resident technical assistance advisors, intermittent advisors, and program-related administrative costs. The appropriation will support technical assistance programs in Asia, the Middle East, Africa, Latin America, the Caribbean, and Europe. It will enable the provision of technical assistance to developing and transition countries to strengthen the capacity of finance ministries, central banks, and other government institutions to manage public finances and oversee the financial sector. Technical assistance projects support efficient revenue collection, well-planned and executed budgets, judicious debt management, sound banking systems, and strong controls to combat corruption and economic crimes, including terrorist financing. The appropriation will also support Treasury's work to strengthen the financial underpinnings for infrastructure development. OTA will continue to coordinate its activities with the Department of State, USAID, and other relevant U.S. Government agencies as well as international financial institutions, and other bilateral donors when determining where its technical assistance program can have the greatest positive impact.

Funds for debt restructuring are periodically needed to help countries reduce the burden of unsustainable debts, thereby establishing a sounder footing for economic growth. Debt relief and restructuring can be fundamental to helping countries stabilize their economies, restart economic growth, and alleviate poverty and instability. Through the Paris Club and programs such as the Heavily Indebted Poor Countries (HIPC) Initiative, countries that have demonstrated a commitment to economic reforms can benefit from debt restructuring. These programs have provided authority and appropriations to reschedule and/or reduce debt repayments to the U.S. Government.

Development Assistance Programs.—The Development Assistance (DA) account has been used to invest in partnerships that support ending extreme poverty and promoting resilient, democratic societies around the world. In an effort to streamline accounts and ensure the most effective use of foreign assistance funding, the 2019 Budget eliminates the DA account and incorporates funding for selected programs previously requested under the Economic Support Fund (ESF) and DA accounts within the new Economic Support and Development Fund account. The 2019 Budget frees up funding for strengthening the U.S. military and pursuing critical domestic priorities by focusing foreign assistance in regions and on sectors that advance our national security and protect the American people, promote U.S. prosperity and economic opportunities, and advance American interests and values around the world, while continuing to support key strategic partners and allies and to ensure efficiency, effectiveness, and accountability to the U.S. taxpayer.

Prior to 2008, funds were appropriated to the Child Survival and Health Programs account to support activities that address family planning/reproductive health; child survival and maternal health, including activities directed at vulnerable children and the primary causes of morbidity and mortality, polio, micronutrients and iodine deficiency; preventing and treating infectious diseases such as malaria and tuberculosis; and reducing HIV transmission and the impact of the HIV/AIDS pandemic in developing countries. Additional funding for HIV/AIDS was appropriated in the Global HIV/AIDS Initiative account for this purpose through 2007. Beginning in 2008, funds for these activities were appropriated in the Global Health and Child Survival (now Global Health Programs) account, and will continue to be requested in that account.

The purpose of the Assistance for Europe, Eurasia and Central Asia (AEECA) account was to support programs to foster the democratic and economic transitions of the countries of Southeastern Europe and the independent states that emerged from the dissolution of the Soviet Union, as well as related efforts to address social sector reform and combat transnational threats in these countries. From 2013 through 2015, funding for the programs formerly funded through AEECA were included in the Economic Support Fund (ESF), International Narcotics Control and Law Enforcement (INCLE), and Global Health Programs (GHP) accounts. In 2016, Congress reinstated the AEECA account for those programs funded with ESF and INCLE; however the 2018 and 2019 requests propose funding all of these

programs through the Economic Support and Development Fund, INCLE, and GHP accounts.

The International Disaster Assistance (IDA) account provides funds to save lives, reduce human suffering, and mitigate and prepare for natural and complex emergencies overseas. Specifically, these funds provide for the management of humanitarian assistance, rehabilitation, disaster risk reduction, transition to development assistance programs, as well as emergency food interventions. Humanitarian relief interventions include, but are not limited to, shelter, emergency health and nutrition, the provision of safe drinking water. Emergency food responses include interventions such as local and regional purchase of food near crises, the provision of U.S. commodities, food vouchers, or cash transfers and complementary activities that support the relief, recovery and resilience of populations affected by food crises. IDA programs target the most vulnerable populations who are affected by the shock of a disaster, including those who are internally displaced.

This request includes \$776.8 million, including \$279.6 million for the U.S. Agency for International Development (USAID) Office of U.S. Foreign Disaster Assistance and \$497.2 million for the USAID Office of Food for Peace for emergency food responses. (See the IDA account in the Overseas Contingency Operations section for information about the IDA-OCO funding request in 2019.)

The FY 2019 budget request eliminates the P.L. 480 Title II account. Providing emergency food aid through IDA has been shown to allow more appropriate and on average more cost effective assistance than Title II food aid. The IDA request will ensure that all food assistance programs are appropriate to local needs and will increase overall effectiveness.

The Budget also proposes to authorize the use of a portion of the remaining emergency funding appropriated in 2015 for the Ebola response in West Africa (Public Law 113–325) for global health security programs. In 2019, \$72.5 million unobligated balances or recoveries from IDA, the Global Health Programs account, and/or the Economic Support Fund account would be made available for these purposes.

The Transition Initiatives (TI) account addresses opportunities and challenges facing conflict-prone countries and those countries making the transition from the initial crisis stage of a complex emergency to sustainable development and democracy. Programs are focused on advancing peace

and stability, including promoting the responsiveness of central governments to local needs, increasing civic participation, raising awareness of national issues through media, addressing the underlying causes of instability, and supporting conflict resolution measures. Recent country examples where TI funds were used include Nigeria, Somalia, Honduras, Syria, Burma, and Ukraine.

TI funding provides core operational funds for the Office of Transition Initiatives within the U.S. Agency for International Development Bureau for Democracy, Conflict, and Humanitarian Assistance.

The Fund, authorized by section 635(m) of the Foreign Assistance Act of 1961, finances on a reimbursable basis the costs associated with providing administrative support to other agencies under the International Cooperative Administrative Support Services (ICASS) program overseas. Under ICASS, each agency pays a proportional share of the cost of those services they have agreed to receive. Working through inter-agency councils at post, all agencies have a say in determining which services the USAID mission will provide, defining service standards, reviewing costs, and determining funding levels. The Fund is also used for deposit of rebates from the use of Federal credit cards, the deposits then being made available for start-up costs at new ICASS service-provider missions and technical support to missions currently providing services.

As required by the Federal Credit Reform Act of 1990, this account recorded, for the Development Credit Authority (DCA), the subsidy costs associated with direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program and legacy USAID credit programs. The subsidy amounts are estimated on a net present value basis; the administrative expenses are estimated on a cash basis.

In 2019, as part of the Administration's plan to reform and modernize US Development Finance, DCA will be consolidated with other development finance functions, such as the Overseas Private Investment Corporation, into a new Development Finance Institution. All future DCA activities are presented in the Development Finance Institution program and financing accounts.

The Overseas Private Investment Corporation (OPIC) encourages the participation of United States private sector capital and skills in the economic and social development of developing countries and emerging market economies. Its primary noncredit program is political risk insurance against losses due to expropriation, inconvertibility, and damage due to political violence. Balances in this account are reserves held for potential claims and are not expected to be obligated.

In 2019, as part of the Administration's plan to reform and modernize US Development Finance, OPIC will be consolidated with other development finance functions, such as USAID's Development Credit Authority, into a new Development Finance Institution. All future OPIC insurance and non-credit activities are presented in the Development Finance Institution program account.

The Overseas Private Investment Corporation (OPIC) encourages the participation of United States private sector capital and skills in the economic and social development of developing countries and emerging market economies. Its credit program is investment financing through loans and guaranteed loans. As required by the Federal Credit Reform Act of 1990, the Program Account records the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

In 2019, as part of the Administration's plan to reform and modernize US Development Finance, OPIC will be consolidated with other development finance functions, such as USAID's Development Credit Authority, into a new Development Finance Institution. All future OPIC credit activ-

ities are presented in the Development Finance Institution program and financing accounts.

The Budget proposes to eliminate funding for several independent agencies, including for the U.S. Trade and Development Agency (USTDA), as part of the Administration's plans to move the Nation towards fiscal responsibility, to redefine the proper role of the Federal Government, and to prioritize rebuilding the military and making critical investments in the Nation's security. Because USTDA is primarily focused on middle income countries and not on development finance, TDA is not being consolidated into the new Development Finance Institution (DFI). The Budget requests \$12.1 million to conduct an orderly closeout of the agency beginning in fiscal year 2019, which includes funding for personnel costs, including severance payments and salaries for essential personnel during the closeout; rental payments; and other costs related to termination.

The Administration proposes to consolidate, reform, and modernize US Development Finance functions, such as USAID's Development Credit Authority (DCA) and the Overseas Private Investment Corporation (OPIC). The Development Finance Institution (DFI) encourages the participation of United States private sector capital and skills in the economic and social development of emerging market economies. As required by the Federal Credit Reform Act of 1990, the Program Account records the subsidy costs associated with the direct loans obligated and loan guarantees committed in 1992 and beyond (including modifications of direct loans or loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis. Additionally, the Program Account records the costs associated with non-credit activity and holds balances for potential insurance claims that are not expected to be obligated.

The President's Budget requests \$38 million in spending authority from offsetting collections and transfer authority from USAID to support DFI activities such as loans, loan guarantees, insurance, feasibility studies, and other programming as authorized. For loans and loan guarantees, this request includes a limitation on budget authority up to \$80 million, and an annual limitation on the total committed amount up to \$8 billion. The President's Budget also requests \$94 million in administrative expenses that will fund the total cost of development, implementation, and financial management of the DFI programming, as well as the continued administration of USAID and OPIC legacy credit portfolios. Additionally, the President's Budget requests \$2 million for a robust oversight, inspection, and evaluation of DFI programming.

The Peace Corps will provide direct and indirect support to Americans serving as Volunteers in approximately 65 countries worldwide in 2019, including the necessary safety and security provisions for Volunteers, trainees, and staff. The 2019 budget supports recruitment, screening, and placement of Peace Corps trainees and sustains new and existing Volunteers to have approximately 7470 Americans enrolled in the Peace Corps by the end of 2019. The Volunteers help fill the trained manpower needs of developing countries and encourage self-sustaining development of skilled

manpower. The Peace Corps also promotes mutual understanding between the peoples of the developing world and the United States and focuses the attention of the American people on the benefits of community service. Peace Corps Volunteers work primarily in the areas of agriculture, community economic development, education, environment, health and HIV/AIDS, and youth in development.

The Peace Corps Office of Inspector General provides independent oversight in accordance with the Inspector General Act of 1978, as amended. Through audits, evaluations and investigations the office prevents and detects waste, fraud, abuse and mismanagement; provides advice and assistance to agency management; and promotes efficiency, effectiveness and economy in agency programs and operations.

This account transfers funds to the operating expense account for the Peace Corps to finance upward adjustments of recorded obligations because of foreign currency fluctuations. Transfers are made as needed to meet disbursement requirements in excess of funds otherwise available for obligation adjustment. Net gains resulting from favorable exchange rates are returned to this account and are available for subsequent transfer when needed. The account is replenished through the utilization of a special transfer authority that allows the Peace Corps to withdraw unobligated

balances from the operating expenses account from prior years as long as the authorized limit of \$5 million is not exceeded at the time of the transfer.

In order to streamline the panoply of international affairs agencies operating today, the Budget proposes consolidating small grants functions and assistance aimed at reaching poor and remote communities that is currently carried out by the Inter-American Foundation (IAF) into the U.S. Agency for International Development (USAID) in FY 2019. To facilitate the consolidation, the Budget requests \$3 million to conduct an orderly closeout of IAF beginning in fiscal year 2019, which includes sufficient funding for severance payments for duplicative functions not merged into USAID and other miscellaneous requirements for an orderly shutdown. The Budget also requests new funding for small grantmaking and select personnel through USAID to continue these functions.

The United States participates in the International Monetary Fund (IMF) through a quota subscription, denominated in Special Drawing Rights (SDRs). Under reforms to IMF quotas decided in 2010 and implemented by the IMF in early 2016 after Congress passed the necessary legislation ratifying the reforms, the U.S. quota at the IMF increased by SDR 40,871,800,000 (approximately \$58 billion using the current exchange rate) to SDR 82,994,200,000 (approximately \$117 billion using the current exchange rate). Quotas are the main metric used by the Fund to assign voting shares and to determine countries' contributions to the IMF's general resources and access to IMF financing.

The use of the U.S. quota resources by the IMF constitutes an exchange of monetary assets and does not result in net budget outlays. When the United States transfers dollars or other reserve assets to the IMF under the U.S. quota subscription, the United States receives an equal, offsetting, and interest-bearing claim on the IMF, which is reflected as an increase in U.S. international monetary reserves. The U.S. reserve position in the IMF is readily available to meet a U.S. balance-of-payments financing need.

Title IX of The Department of State, Foreign Operations, and Related Programs Appropriations Act, 2016 (Public Law 114–113) directs that the budgetary authority and outlays of the 2016 quota increase be recorded on a present value basis with a fair value premium added to the discount rate.

In addition, under the Act, the 2009 quota increase is also now executed on a present value basis.

Memorandum (non-add) entries: 5116 New Arrangements to Borrow	39,858	39,858	39,858

The General Arrangements to Borrow (GAB) were established in 1962 by 10 industrial countries, including the United States, as a means of supplementing the IMF's quota resources to forestall or cope with an impairment of the international monetary system. GAB participants decided in early 1983 to increase their financial commitments to the GAB from approximately SDR 6.3 billion to SDR 17 billion (about \$17.9 billion at that time), with the U.S. share rising from SDR 1.9 billion to approximately SDR 4.25 billion (about \$6 billion using the current exchange rate). In December 2017, GAB participants decided unanimously that the GAB should be allowed to lapse when its current term ends on December 25, 2018. Accordingly, the GAB decision was not renewed by the IMF's Executive Board by December 25, 2017, the deadline for its renewal. The nonrenewal of the GAB will have no budget implications for the United States as amounts authorized for the GAB are also authorized to be used for the New Arrangements to Borrow (NAB), hence the sum of U.S. resources made available to the IMF under the NAB and GAB could not exceed the total U.S. NAB participation.

In January 1997, the Executive Board of the IMF approved the creation of the NAB, which is a standing arrangement among certain IMF members to supplement the IMF's quota resources as needed to forestall or cope with an impairment of the international monetary system or to deal with an exceptional situation that poses a threat to the stability of the system. The NAB became effective on November 17, 1998, and was activated for the first time in December 1998 to finance an IMF arrangement for Brazil. The IMF repaid the NAB participants in March 1999. From 1999 through March 2011 the NAB was not activated.

By the end of 2016, following reduction of the NAB as part of the 2010 IMF reforms (see the account entitled "United States Quota, International Monetary Fund"), 38 countries and institutions participated in the NAB for a total of SDR 181 billion (about \$255 billion), of which the U.S. share was approximately SDR 28 billion (about \$40 billion). The IMF began a six-month NAB activation period in October 2015, and deactivated the NAB in February 2016, before the end of the six-month period.

With respect to this account, resources provided by the United States under the GAB and NAB constitute an exchange of monetary assets and do not result in any net budgetary outlays because such transactions result in an equivalent increase in U.S. international reserve assets in the form of an equal, offsetting, interest-bearing claim on the IMF. U.S. claims on the IMF under the GAB and NAB are readily available to meet a U.S. balance-of-payments financing need.

Title IX of The Department of State, Foreign Operations, and Related Programs Appropriations Act, 2016 (Public Law 114–113) rescinded SDR 40,871,800,000 from U.S. participation in the NAB. The Act also directs that the budget authority and outlays of the NAB rescission be recorded on a present value basis with a fair value premium added to the discount rate. In addition, under the Act, the 2009 NAB increase is also now executed on a present value basis.

The Special Defense Acquisition Fund (SDAF) helps to better support coalition and other U.S. partners participating in U.S. overseas contingency and other operations; and expedite the procurement of defense articles for provision to foreign nations and international organizations. The 2019 request reflects \$900 million in new SDAF obligation authority, to be funded by offsetting collections. In 2019, offsetting collections will be derived from SDAF sales of stock as well as other receipts consistent with section 51(b) of the Arms Export Control Act. The 2019 request will support advance purchases of high-demand equipment that has long procurement lead times, which is often the main limiting factor in our ability to provide coalition partners with critical equipment to make them operationally effective in a timely manner. Improving the mechanism for supporting U.S. partners is a high priority for both the Departments of State and Defense.

DIPLOMATIC FACILITIES

SEC. 7003. (a) NEW DIPLOMATIC FACILITIES.—For the purposes of calculating the fiscal year 2019 costs of providing new United States diplomatic facilities in accordance with section 604(e) of the Secure Embassy Construction and Counterterrorism Act of 1999 (22 U.S.C. 4865 note), the Secretary of State, in consultation with the Director of the Office of Management and Budget, shall determine the annual program level and agency shares in a manner that is proportional to the Department of State's contribution for this purpose.

(b) TRANSFER AUTHORITY.—Funds appropriated under the heading "Diplomatic Programs", including for Worldwide Security Protection, and under the heading "Embassy Security, Construction, and Maintenance" in titles I and VIII of this Act may be transferred to, and merged with, funds appropriated by such titles under such headings if the Secretary of State determines and reports to the Committees on Appropriations that to do so is necessary to implement the recommendations of the Benghazi Accountability Review Board, or to prevent or respond to security situations and requirements, following consultation with, and subject to the regular notification procedures of, such Committees: *Provided*, That such transfer authority is in addition to any transfer authority otherwise available under any other provision of law.

- (2) Not to exceed the greater of 5 percent or \$2,000,000 of any appropriation for the Broadcasting Board of Governors under title I of this Act *or under title I of prior Acts* may be transferred between, and merged with, such appropriations, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 10 percent by any such transfers.

- (b) TITLE VI TRANSFER AUTHORITIES.—Not to exceed 5 percent of any appropriation other than for administrative expenses made available for fiscal year 2019, for programs under title VI of this Act may be transferred between such appropriations for use for any of the purposes, programs, and activities for which the funds in such receiving account may be used, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 25 percent by any such transfer: *Provided*, That the exercise of such authority shall be subject to the regular notification procedures of the Committees on Appropriations.
